

RRC's Short Courses

RRC's Short Courses are designed for In-Company delivery. They can be adapted to meet the specific requirements of your organisation and can be delivered in many languages. Below is a summary of the general course content and aims. Contact us if you would like to discuss any adaptations that would benefit your organisation.

Permit to Work - Course Summary

RRC's Permit to Work Short Course can be delivered as a short half-day course outlining the importance of a permit to work (PTW) system. This can be expanded to a full day course with a practical workshop with use of real permit examples.

It is ideal for:

- Safety Professionals
- Engineers and supervisors/managers who may be required to issue permits
- Employees working under PTW

Course Aims and Objectives

The **RRC Permit to Work Short Course** will allow Learners to:

- Understand where PTW can and should be used
- Consider examples of historic permit failures resulting in accidents
- Recognise the key contents of a PTW system
- Understand the importance of effective isolation systems when using PTW

Course Duration

1 Day (4-8 Hours)
